

2-year-old Curriculum

Our curriculum is thematically based each week by the teachers. This gives our experienced and talented staff the opportunity to use their creativity and special interest to inspire the children in their classroom.

Units may include: Farm, zoo, seasons, transportation, holidays, ocean, sports, insects and many others. You will receive an email each week letting you know the unit and any special events happening during the week. We use Marco Polo to send you videos of the children in the classroom.
